PROJECTS

Wordle Solver

2022

Tool I created in Python to help the user solve the New York Times' popular "Wordle" game.

https://github.com/lhlamar/wordle_solver

Portfolio Website

2023

Website I created in HTML, CSS, and JS displaying my relevant information and projects, etc.

<https://portfolio-beta-inky-16.vercel.app/>

Typing Test

2023

Browser based web typing test in which the user can get the results of how fast they type in words per minute, characters per minute, and the accuracy at which they can correctly type characters.
